PROFESSIONAL SUMMARY

Computer Engineering diploma student at Meerabai DSEU with internship experience at Mooncee in social media activities, e-commerce product listings, visual content creation, and AI-assisted workflows. Developed student-focused projects including Emora, Student Management System, and Student Expense Tracker. Interested in opportunities across IT, AI-enabled workflows, and digital technology.

TECHNICAL SKILLS

Programming: Python (Basic), C (Basic), SQL (Basic) **AI Tools:** ChatGPT, Google Gemini, Claude
Digital & E-commerce: Social media management, content creation, product listing, product lifestyle imagery, image editing/design
Productivity: MS Word, MS Excel, MS PowerPoint **Core Strengths:** Communication, problem-solving, time management, teamwork

EXPERIENCE

Mooncee | Social Media Intern | 27 July 2026 - Present

- Managed social media content and activities across LinkedIn and Instagram.
- Created product lifestyle images and visual content for e-commerce marketing; supported product listings and presentation.
- Used ChatGPT, Google Gemini, and Claude for content ideation and AI-assisted workflows; supported digital branding and day-to-day content tasks.

PROJECTS

Emora - Emotion Reflection Application: A project where users describe their feelings and the application interprets the likely mood. It reflects self-reported emotions; it is not presented as a medical diagnosis.
Student Management System: A student-focused project intended to organise student information and related records.
Student Expense Tracker: A student-focused expense tracking project for recording and reviewing personal spending.
